

TABLE OF CONTENTS

Overview

Chapter 1 Introduction

Remote SpoolPrint3X/400 Features.....	1-1
Transfer using SNADS Features.....	1-4
Remote Writer Operations	1-4
IASPs and Multiple Remote SpoolPrint Instances.....	1-4

Chapter 2 Installation

Prerequisites.....	2-1
Installation	2-2
System/36 Machines	2-2
AS/400 Machines.....	2-3
Defining Network Objects	2-5
Remote Writer Planning	2-7

System/38, AS/400 Administration

Chapter 3 Remote SpoolPrint/38/400 Main Menus

Remote Writer Control Options.....	3-1
Remote Writer Definition Options.....	3-2
Translation Table Management Options.....	3-2
Other Commands	3-2

Chapter 4 Maintaining Remote Writers

Defining Remote Writers	4-1
S/370 Considerations	4-9
Damaged Data Queues.....	4-10

Chapter 5 Controlling Remote Writers

Starting Remote Writers	5-1
Examples.....	5-2
Stopping Remote Writers.....	5-2
Displaying Remote Writer Status	5-3
Remote SpoolPrint Server.....	5-4

Chapter 6 Using the Remote Writer "Wake UP" Function

TABLE OF CONTENTS

Chapter 7 Changing Form, Font, or FCB During Transmission

Managing the Forms Translation Table	7-1
Listing the Forms Translation Table.....	7-2
Managing the Font Translation Table.....	7-2
Listing the Font Translation Table.....	7-2
Managing the FCB Translation Table.....	7-3
Listing the FCB Translation Table.....	7-3

System/36 Administration

Chapter 8 Remote SpoolPrint/36 Main Menu

Remote Writer Control Options.....	8-1
Remote Writer Definition Options.....	8-1
Translation Table Options.....	8-1
SSP Commands.....	8-1

Chapter 9 Maintaining Remote Writers

Creating Remote Writers	9-1
Changing Remote Writers.....	9-2
Deleting Remote Writers	9-2
Create/Change Parameters	9-2

Chapter 10 Controlling Remote Writers

Starting Remote Writers	10-1
Stopping Remote Writers.....	10-2
Displaying Remote Writer Status	10-3

Chapter 11 Changing Form, Font, or FCB During Transmission

Managing the Forms Translation Table	11-1
Listing the Forms Translation Table.....	11-1
Managing the Font Translation Table.....	11-2
Listing the Font Translation Table.....	11-2
Managing the FCB Translation Table.....	11-2
Listing the FCB Translation Table.....	11-3

TABLE OF CONTENTS

Appendices

Appendix A Upload and Download Utilities

S/38, AS/400 to S/36 Library Image Download	A-1
S/38, AS/400 to S/36 Folder Image Download.....	A-2
S/36 to S/38, AS/400 Library Upload.....	A-2
S/36 to S/38, AS/400 Folder Upload	A-3

Appendix B Additional Functions

System/38, AS/400 Tailoring Options	B-1
Remote SpoolPrint Logging	B-4
Querying the Remote SpoolPrint Log.....	B-4
Managing the Remote SpoolPrint Log.....	B-6
Unlocking System/36 Spool Entries	B-6
Remote SpoolPrint Server.....	B-7
Creating Application ID's.....	B-9
Access the BDS Software Server.....	B-9
Rebuilding Damaged Data Queues.....	B-11

Appendix C Example Configurations

S/38 to S/36, S/38 Example Configuration.....	C-1
S/36 to S/36 Example Configuration	C-4
AS/400 to S/36, S/38, AS/400 Example	C-8
AS/400 TCP/IP Example	C-13

Appendix D Electronic Media Distribution

S/38 or AS/400 Machines	D-1
S/36 Machines.....	D-1

Appendix E AS/400 Security Considerations

Passing User Profile and Password.....	E-1
Passing User Profile and AVI Flag	E-2
Passing No User Profile or Password	E-2

Appendix F Release compatibility Table

Current Release Table.....	F-1
Previous Release Table	F-1

TABLE OF CONTENTS

Appendix G Problem Determination

General.....	G-1
AS/400 Sending System	G-1
AS/400 Receiving System	G-4

Appendix H Remote SpoolPrint Commands H-1

Appendix I TCP Considerations

Planning Guide.....	I-1
Remote SpoolPrint Server.....	I-1
TCP Port Usage.....	I-2
TCP SubPort Usage (Previous Releases).....	I-2
Secure Socket Layer Considerations.....	I-3
Setup Example	I-3

Appendix J ASP Considerations

Setup/System Considerations.....	J-1
Operational Considerations.....	J-2
Moving Product Libraries to other ASPs	J-3
BDS Move Lib Utility	J-3
Running Multiple Remote SpoolPrint Instances in an LPAR.....	J-6

Appendix K Inter-Product Release Compatibility Table
