

TABLE OF CONTENTS

Section I: Administration

Chapter 1 Introduction

Spool Processing Features	1-1
Archiving Features	1-3
Report Distribution (Bundling) Features	1-5
Indexing Features	1-6
Monitoring an Outq.....	1-8
Processing Options Performed by the Monitor.....	1-9
Selecting Spool Entries to Display.....	1-10
Displaying a Spool Entry	1-11
Archiving the Online Database to Tape or Optical.....	1-13
Displaying Archived Spool Entries from Tape or Optical.....	1-13
Restore Spool Entries from Tape	1-14
Creating a Microfiche Tape	1-14
Global Search for Text Strings	1-14
Security	1-15
Bundling Output.....	1-15
Partial Print Bundle Entries	1-17
Bundle Scheduling Features.....	1-18
Bundle Day of Week Feature.....	1-19
Bundle Active Class Feature.....	1-19
Displaying Active Bundles	1-19
SpoolOrganizer Logging Feature.....	1-20
E-Mail Features.....	1-21
E-Mail Specification Features	1-22
E-Mail Sent Mail Log	1-23
Move Spool Entries to IFS Directory	1-24
Web Browser Access	1-24
Spool PDF Overlay/400™ Interface	1-25
IASPs and Multiple Spool Organizer Instances.....	1-25
Spool Data Encryption to Hard Disk, Backup Devices	1-25
Acknowledgements.....	1-26

Chapter 2 Installation

Prerequisites.....	2-1
Installation	2-1
Planning Guide.....	2-3

TABLE OF CONTENTS

Chapter 3 Administration

Define System.....	3-2
Control System Execution	3-4
Monitor Selections	3-5
Archive Selections	3-6
Display Archive Media Selections.....	3-6
Report Distribution (Bundling) Selections	3-7
Indexing Selections.....	3-7
Purge Selections.....	3-8
Restore Archive Media Selections.....	3-9
Miscellaneous Selections	3-9
E-Mail Selections.....	3-10
End User Functions.....	3-10

Section II: Define System

Chapter 4 Define Users

Chapter 5 Define Monitors

Default Processing Options.....	5-4
Damaged Data Queues.....	5-7

Chapter 6 Define Selection Criteria

Selection Criteria	6-2
Processing Options.....	6-2
Testing Selection Specifications	6-5

Chapter 7 Define Outq Distribution Table

Attribute Changes	7-2
-------------------------	-----

Chapter 8 Define Archive or Purge Criteria

Chapter 9 Define Tailoring Options

System Statistics	9-1
-------------------------	-----

TABLE OF CONTENTS

Database File Sizes	9-2
Passwords.....	9-2
Output Options.....	9-2
Specify Logging Options	9-3
Logging Monitor Operations	9-4
Logging Bundle Manager Operations.....	9-6
Logging Index Manager Operations	9-7
Logging Archive and Purge Operations.....	9-8
Set Database/Catalog Logical Views.....	9-9
E-Mail Options.....	9-10
Access the BDS Software Server.....	9-13

Chapter 10 Define Banner Page Specifications

Chapter 11 Define Attribute Change Specifications

Chapter 12 Define Heading Specifications

Chapter 13 Define Bundle Specifications

Defining Bundle Entries	13-6
Partial Print Bundle Entries	13-11

Chapter 14 Define Index Specifications

Section III: Control System Execution

Chapter 15 Monitor Selections

Starting a Monitor.....	15-1
Stopping a Monitor	15-1
Displaying Monitor Status	15-2

Chapter 16 Archive Outq to Tape or Optical

Archive Outq to Tape.....	16-1
Archive Outq to Optical Disk	16-6
User Exit Program.....	16-11

TABLE OF CONTENTS

Chapter 17 Archive Online Database to Tape or Optical

Archive Online Database to Tape	17-1
Archive Online Database to Optical Disk	17-5
Write ARCFILE to Tape	17-9
Write ARCFILE to Optical Disk	17-11

Chapter 18 Display and Restore Media Selections

Display Tape or ARCFILE Entries	18-1
Display Optical Disk Entries	18-3
Spool Entries List Display	18-5
Restore an Outq	18-7
Restore to the Online Database	18-10

Chapter 19 Purge Selections

Purge Online Database	19-1
Purge Optical Catalog	19-1
Purge Archive Catalog	19-2
Purge SpoolOrganizer Log	19-3

Chapter 20 Control the Bundle Manager

Starting the Bundle Manager	20-1
Ending the Bundle Manager	20-1
Apply Bundle Descriptions to Production	20-2
Display Production Specifications	20-2
Setting Active Classes	20-2

Chapter 21 Control the Index Manager

Starting the Index Manager	21-1
Ending the Index Manager	21-1
Apply Index Specifications to Production	21-2
Display Production Specifications	21-2

Chapter 22 Creating a Microfiche Tape

TABLE OF CONTENTS

User Exit Programs	22-2
--------------------------	------

Chapter 23 Verify Online Database

Section IV: User's Guide

Chapter 24 Display Online Spool Entries

Selecting Spool Entries	24-5
Web Browser Access	24-7

Chapter 25 Searching Spool Entries for Text

Chapter 26 Print Spool Entries

Chapter 27 Work with Active Bundles

Web Browser Access	27-5
--------------------------	------

Chapter 28 Display Index Entries

Selecting Index Entries	28-5
-------------------------------	------

Chapter 29 Display a Spool Entry

Moving Through the Spool Entry	29-1
Searching for Text.....	29-1
Splitting the Screen.....	29-1
Printing Part of a Spool Entry.....	29-3
Sending Part of a Spool Entry via E-mail	29-3

Chapter 30 Display SpoolOrganizer Log

Querying the SpoolOrganizer Log.....	30-1
--------------------------------------	------

TABLE OF CONTENTS

Log File Definitions	30-1
Log Operations and Sup-Operations.....	30-2
Managing the SpoolOrganizer Log.....	30-4

Section V: E-Mail

Chapter 31 Define E-Mail Specifications

Logging Parameters	31-5
Attachment File Parameters.....	31-7
Inline-Unformatted Parameters.....	31-8

Chapter 32 Define E-Mail Distribution Table

Chapter 33 Display/Purge the Sent Mail Log

Displaying Sent Mail	33-1
Purging Sent Mail	33-3

Chapter 34 Define E-Mail CSV/TSV Specifications

Chapter 35 E-Mail Spool Entries Command

Chapter 36 Define HTML Specifications

General Keywords	36-1
------------------------	------

Chapter 37 Define PDF Specifications

Chapter 38 IFS Directory Commands

Move Outq to IFS Directory	38-1
Move a Spool Entry to IFS Directory	38-5

Chapter 39 Define Encryption Specifications

TABLE OF CONTENTS

Chapter 40 Define MS Excel Specifications

Chapter 41 Define Excel Style Specifications

TABLE OF CONTENTS

Section VI: Appendices

Appendix A User Exit Programs

Monitor Exit Programs	A-1
Bundle Manager Exit Programs	A-4
Archive Exit Program	A-5
Banner Page Exit Programs	A-5

Appendix B Tutorial

Example 1: Monitor	B-1-1
Example 2: Banner Pages	B-2-1
Example 3: Report Distribution (Bundling).....	B-3-1
Example 4: Indexing	B-4-1
Example 5: E-Mail.....	B-5-1
Example 6: Spool PDF Overlay/400™ Interface	B-5-1

Appendix C SpoolOrganizer Commands

Appendix D Electronic Media Distribution

Appendix E OS/400 E-Mail Setup

Sending Mail.....	E-1
Preventing Split Messages	E-2

Appendix F Web Browser Considerations

Domain Name/IP Address/Port Number.....	F-1
HTTP Server Instance.....	F-2
Validation List	F-2
Apache Server Example Configuration	F-3

Appendix G Other Functions

Rebuilding Damaged Data Queues	G-1
Migrating Archive Tape Considerations.....	G-1

TABLE OF CONTENTS

Change Online Entries (CHGSOENT) Command.....	G-2
Online Database Entries Mass Change API.....	G-6
DR/HA (Mirroring) Considerations.....	G-6
Spool Data Encryption to Hard Disk, Backup Devices	G-7

Appendix H Migrating Optical Entries

Appendix I Tape Library Considerations

Using BRMS.....	I-1
Not Using BRMS.....	I-1

Appendix J Administrative Files Migration

Appendix K ASP Considerations

Setup/System Considerations.....	K-1
Operational Considerations.....	K-2
HTTP Server Considerations	K-3
Moving Product Libraries to other ASPs.....	K-3
BDS Move Lib Utility	K-4
Running Multiple Spool Organizer Instances in an LPAR.....	K-7

Appendix L Release Compatibility Table
